

PGMS Texas Branch holds fall meeting in San Antonio:

The Texas Branch of PGMS held its fall 2011 meeting in San Antonio on September 28. There was a combined tour after the meeting at Trinity University and University of Incarnate Word. The tours were conducted by Mike Schweitzer Acting Director of Trinity and Bill Mulcahy Superintendent of Grounds at UIW. Both tours were wonderful demonstrating how many conditions we share and just how much work is needed to keep a University Campus looking good during the drought conditions we have been experiencing around Texas these past few years. Our next meeting will be in Frederiksberg February 7-9, 2012 in conjunction with the University Landscape Managers Association annual meeting.
